NOTE

- You should prepare 2 skeins of yarn in white, 1 skein for the other colors yarn.
- The pattern is written using crochet terminology common in the US.
- It is recommended to use a stitch marker to mark the first stitch of each round to avoid getting lost.
- The size of the finished piece may vary based on the yarn used and the tension of your stitches. The size is about 30cm~ 11.7 inches.
- This pattern is intended for personal use only. Distribution or sharing of the pattern on social media or other platforms is prohibited.

IMPORTANT NOTE BEFORE STARTING TO CROCHET

End the round by slip stitching.

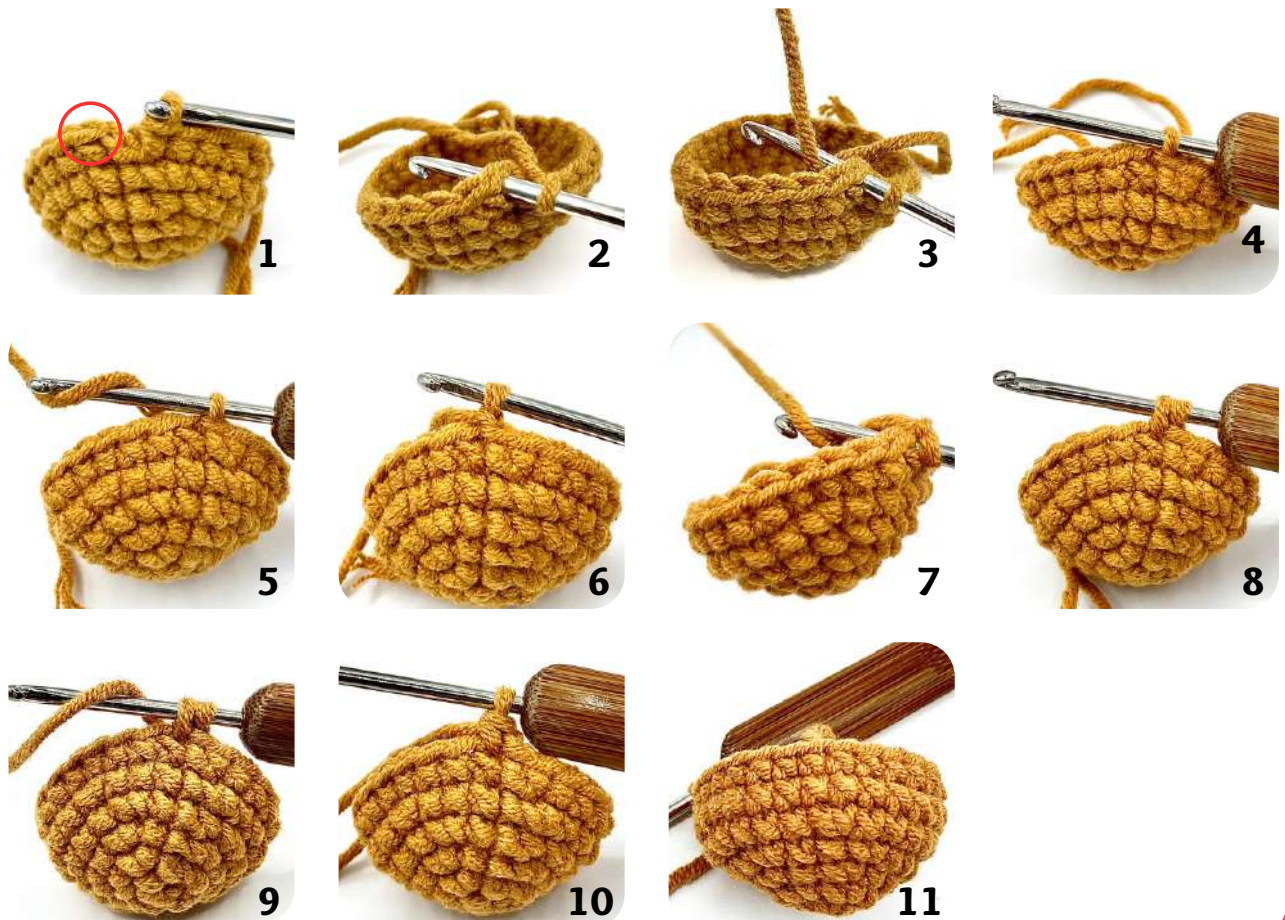

Most of my patterns use the 'end the round with slip stitch' technique. I feel it makes the stitches more aligned and prevents the finished piece from skewing to one side. Of course, you can also use the spiral technique, but the feet or arms might end up in the wrong position.

I feel that some crocheters may not be familiar with the correct operation of the finishing part, so please pay more attention to this section.

for the end of the round :

- 1.To ensure proper end-of-round placement, you should use a stitch marker to mark your first crochet stitch.
- 2.After that, thread the hook through --> take the yarn and pull it through to execute the slip stitch. (images 2, 3, 4) After that, gently pull to tighten it a bit.
- 3.Yarn over and thread it through again to make a chain stitch, and then make the first crochet stitch again where you slipped into to finish the round. (images 5~11)

Here are some notes after finishing a round: chain 1 for SC and HDC, chain 2 for DC, chain 3 for TR or TRC.
